Broadbeach South station - crossing and platform changes

[Print](#) 

Last reviewed: Thursday 7 Nov 2024 at 1.30pm

Works to connect the existing tram network and [Gold Coast Light Rail Stage 3 \(GCLR3\)](#) track extension started on **Sunday 3 March at Broadbeach South station**, with the installation of water barricades, fencing and other initial construction activities.

At this stage there are no changes to tram times or local bus services, but there are minor access changes at the station and local surrounds.

Platform changes

Until further notice you'll need to use **platform 2** (located nearest to the Gold Coast Highway) to get on and off your tram as the other platform is temporarily unavailable.

Please check wayfinding signs and messages at the station, and we'll continue to update you as works progress.

Download the [MyTranslink app](#) and favourite your usual stops and services to be kept up to date with the latest info.
