Translink GTFS real-time feed

Print 

This service exposes real-time transit information for vehicles equipped with real-time tracking technology on the Translink network.

License and support

Data provided by this service is licensed under the Creative Commons (CC-BY) license. More information regarding this license, your support options and other available datasets can be found on Translink's [open data](#) portal.

Authentication is not required to use this data feed.

Accessing the feed

Data is returned in [General Transit Feed Specification - Realtime \(GTFS Realtime\) v2.0](#) format, encoded in Google's [Protobuf](#) format, as per the GTFS real-time specification. The Translink implementation of GTFS-RT v2 is based on this [gtfs-realtime.proto](#) version protobuf definition.
