Special services

Our [busways](#) offer fast congestion-free travel on dedicated roadways. We also have a number of special services:

- **Pre-paid services:** Some bus routes around Brisbane offer a pre-paid service. Most of the pre-paid services only operate in peak times. Paper tickets cannot be bought on pre-paid services, but they can be used to travel on these services. For passengers without a valid ticket, there will be at least one alternative bus to travel on. You can identify peak time pre-paid buses by the letter 'P', in front of the route number, on the bus's destination board.

- **Blue CityGlider and Maroon CityGlider:** CityGlider is a pre-paid bus service that operates as a high frequency service throughout the day. These services do not have a 'P' on the bus destination board.
- **StationLink:** [StationLink](#) - or route 19 - is a temporary high frequency service running between Rocklea train station and the PA Hospital busway station, to help disrupted passengers continue to travel during Cross River Rail's major station accessibility upgrades.
- **High frequency services:** We operate [high frequency services](#) on trams and some bus routes and train lines. Our high frequency services run every 15 minutes or better.
- **Nightlink services:** [Bus and train services](#) operating between midnight and 5am on Friday and Saturday nights.
- **Community services:** [Free and low-cost transport options](#) are available to help people with a disability travel to and from appointments and various activities.
- **FlexiLink:** A [maxi cab service](#) operating in Ipswich and surrounding suburbs. Passengers are picked from their home and driven to any location within the service area.
