Creating Better Connections

Our 10-year plan for passenger transport in Queensland.

Public transport planning

Infrastructure manual

The [Public Transport Infrastructure Manual](#) is relevant to developers of public transport infrastructure, and those planning public transport provision or undertaking development assessment.

It applies best practice planning and design principles to public transport infrastructure, helps with evaluating existing facilities and should be used as a design tool when developing new infrastructure within the Translink network.

Public transport performance dashboard

A digital resource that brings more access and visibility of the performance on the South East Queensland public transport network, including 24 metrics from the Customer Experience Survey.

Patronage and complaints

Weekly complaints received and categorised as either go card or non-go card related, including passenger volumes and complaints per 10,000 trips.

Infrastructure signage manuals

To assist businesses to prepare design documents for infrastructure signage across the Translink network, we have prepared the:

- [Bus Network Infrastructure Signage Manual](#)(Link opens in new tab/window)
- [Rail Station Signage Manual](#)(Link opens in new tab/window)

These manuals ensure the presentation and location of signage is accessible and consistent across the Translink bus and train network.

If you are unable to access any infrastructure manuals, please [contact us](#).

go card fare adjustment report

Weekly report of go card fare adjustments processed, including:

- total number of trips taken
- total adjustments processed
- adjustments per 10,000 trips
- fixed fares percentage of all trips.

Customer experience

Reports from Translink's monthly Customer Experience Survey (CES).

South East Queensland performance data from July 2019
