Translink GTFS real-time feed

Print 🖶

This service exposes real-time transit information for vehicles equipped with real-time tracking technology on the Translink network.

License and support

Data provided by this service is licensed under the Creative Commons (CC-BY) license. More information regarding this license, your support options and other available datasets can be found on Translink's open data portal.

Authentication is not required to use this data feed.

Accessing the feed

Data is returned in General Transit Feed Specification - Realtime (GTFS Realtime) v2.0 format, encoded in Google's Protobuf format, as per the GTFS real-time specification. The Translink implementation of GTFS-RT v2 is based on this gtfs-realtime.proto version protobuf definition.
